

Hong Kong Disneyland Team-Building and Leadership Skill Training Fun Day for MScPACG and MAIA Students (25 October 2025)

2 DECEMBER 2025

On 25 October 2025, the Department of Accountancy organized an engaging Team-Building and Leadership Skill Training Fun Day at Hong Kong Disneyland for students enrolled in the Master of Science in Professional Accounting and Corporate Governance (MScPACG) and the Master of Arts in International Accounting (MAIA) programmes.

The day began with a warm welcome at the Disneyland Hotel, where students participated in ice-breaking activities. This was followed by a Dim Sum Fun Cooking Session led by a professional coach from the Hong Kong Disneyland Recreation Team. Students enjoyed the process and proudly displayed their hand-made dim sum, sharing their thoughts on the successful completion. Students collaborate while preparing dishes, demonstrating their teamwork through effective task delegation, problem-solving, and adaptability. This shared experience not only strengthens interpersonal relationships but also allows individuals to uncover and enhance their leadership potential, with some students naturally stepping into guiding roles.

Hong Kong Disneyland Team-Building and Leadership Skill Training Fun Day for MScPACG and MAIA Students (25 October 2025)

During a buffet lunch at the Hong Kong Disneyland Hotel, students had the opportunity to engage with Programme Leaders, Associate Programme Leaders, and their peers, fostering their connections.

After the training sessions, the students left the Disneyland Hotel to enjoy a complimentary visit to Hong Kong Disneyland Park, where they had time to explore and experience the park's attractions. This engaging event provided students with a unique opportunity to bond with their peers and faculty. The Department of Accountancy looks forward to hosting further similar events that combine training with enjoyable and leisurely experiences.
