

## Hong Kong Disneyland Team-building and Leadership Skill Training Fun Day for MAIA and MScPACG Students (4 October 2026)

15 OCTOBER 2026

On 4 October 2026, the Department of Accountancy organized an engaging Team-building and Leadership Skill Training Fun Day at Hong Kong Disneyland for students enrolled in the Master of Science in Professional Accounting and Corporate Governance (MScPACG) and the Master of Arts in International Accounting (MAIA) programmes.

The day began with a warm welcome at the Hong Kong Disneyland Hotel. Students took part in a series of fun games at Dreamer's Garden, led by a professional coach from the Hong Kong Disneyland Recreation Team. Designed to strengthen team-building and leadership capabilities, activities encouraging collaboration, effective communication, and strategic thinking allowed students to practice these skills in dynamic and enjoyable settings. The day was followed by a delightful buffet lunch at the hotel with the Associate Programme Leaders, providing further opportunities for interaction and connection.

After the training sessions, students enjoyed a complimentary visit to Hong Kong Disneyland Park, where they explored the attractions and continued to bond with their classmates. The event offered a meaningful blend of leadership development and shared experiences, aiming to help students to build strong connections and lasting memories. The Department of Accountancy looks forward to organizing more events that combine practical training with enjoyable and enriching experiences.
