Sweet Memories of University Life

AC students are happy to share their thoughts on the various programmes organised by the Department.

As the old Chinese saying goes, "Travelling thousands of miles is better than reading thousands of books". Despite studying alone in unfamiliar places, our students never feel lonely. Instead, they befriend people all around the globe.

Exchange Programmes

While studying in the United States, Jane Wang opened her heart to make new friends. She misses the happy moments of watching three live NBA

games and celebrating Thanksgiving and Halloween in a small town with friends from different countries.

MOTTO

HOBBIES
 Composing songs, watching documentary series and films
 Cheung Pak Lun, Warren
 (Year Two BBAAC student)

Carrie Liu, who carried a huge backpack on her travels to 16 cities in eight countries in Europe, misses her days of studying too. This may be her only chance to travel around Europe for such a long period and to make so many new buddies.

The study culture in Europe impressed Carrie Liu a lot. It was an eye-opening experience, she said. A mock business meeting held by her university in Copenhagen was just like a "mini-United Nations!" Carrie exclaimed. Experiencing a variety of exotic cultures broadened her horizons. She also discovered that European students emphasis depth of understanding and read extensively in the subjects they are studying. Her university even sets aside a semester break for students to read!

Internships

Joining internship programmes has also proved to be an invaluable experience for our students. Jane Wang learnt many soft skills and acquired professional knowledge from her colleagues and mentors at Deloitte Touche Tohmatsu (HK).

Life Lessons

For Ami Tsoi, a Year Three BBAAC student, university life has been full of tears and joy. In spite of the intensive coursework, projects and examinations, the most memorable aspects for her are staying overnight in the library, discussing complicated

accounting topics with her teammates, participating in difficult interviews, and joining a wide range of programmes and activities. She is glad to have been a member of such a warm-hearted department with many kind and caring professors and friends.

Looking back, the time spent at university was short, but it was filled with many precious and unforgettable memories, and the friendships made and knowledge acquired will never fade.
