

Master of Arts in International Accounting (MAIA)

Farewell Reception on 18 May 2018

The Department of Accountancy's Farewell Reception (for the Master of Arts in International Accounting (MAIA) Program) was held on the afternoon of 18 May 2018.

Around 30 MAIA students graduating in the coming July attended this event, together with some of their instructors. During the event, the students talked freely and shared their ideas about their study experience at CityU and post-graduation plans, including (but not limited to) their career development, continuing education, leisure activities and family plans. All of the students received best wishes for their future endeavors from their respectful instructors.

The event was well received by the MAIA students and was a good conclusion to their studies at CityU. The department hopes to gain strong support from all stakeholders for future similar activities.
