

New Staff Arrival – Dr. Qin Tan

Hello, my name is Qin Tan, and I am very excited to join the Department of Accountancy at CityU, which is a big family that has been amazingly collegial, lively and productive.

I grew up in Chengdu, Sichuan, in mainland China, earned my B.A. in economics at Peking University in 2005, my M.A. in accounting at College of William & Mary in 2009 and my Ph.D. in accounting at Yale University in 2018.

Right after my undergraduate studies, I worked in several financial and managerial accounting positions with the A.P. Moller Maersk Group in many different parts of the world, including Qingdao, Shenzhen, Dubai, Denmark and the United States. I look forward to applying these various work experiences and my academic knowledge in my teaching activities at CityU. My research interests focus on the pricing of accounting information, firms' disclosure choices and the real effects of changes in disclosure regulations.

I have a seven-year-old daughter and an American husband who loves Chinese culture especially Chinese cuisines. In my spare time, I enjoy cooking, hiking and spending time with family and friends. The first picture was taken with my husband and daughter during our trip to Yellowstone National Park. The second picture was taken on my graduation day at Yale with my daughter in front of the university library.
