

## Master of Arts in International Accounting (MAIA) Farewell Reception 2019

AC organized a Farewell Tea Gathering on 21 May 2019 for this year's outgoing MAIA students. Having successfully concluded their studies in May, the graduates were well prepared to take their places in the job market, with impressive theoretical knowledge and practical skills. This was an opportune time for them to meet with accounting faculty members to share their experiences of the program, seek career advice and begin forging a professional network.

Around 30 MAIA students attended the tea gathering. In a casual and relaxed atmosphere, they were able to talk freely and exchange good wishes with their peers and faculty members. In his opening remarks, Professor Kim, head of the department, reminded the students that accounting plays an important role in the functioning of the capital market and that the accounting profession is highly regarded around the world. He encouraged the graduates to leverage what they had learned from the MAIA program to contribute to the development of society and the accounting profession.
