

Professor Yangyang CHEN

My name is Yangyang Chen and I am very happy to join the Department of Accountancy at CityU. I received my Ph.D. from the University of Melbourne and previously worked at the Hong Kong Polytechnic University and Monash University.

My research interests lie in corporate finance and financial accounting. Due to my background in finance, I enjoy conducting research that links finance concepts to accounting issues. My main research areas are management compensation, corporate innovation, options trading, auditing, and management earnings forecasts. I have published many papers in major accounting and finance journals.

I enjoy traveling because it gives me the opportunity to experience the environment and culture of different places. I also like playing sports, including soccer, table tennis, and badminton.
