

HKSI Institute Case Competition 2022 - Top Performer Award

LEE Ka Keung, BBA in Accountancy, 2020 Cohort

It was such an honour for me to participate in the rebranded Hong Kong Securities and Investment (HKSI) Institute Case Competition 2022 (formally known as the HKSI Institute Scholarship Programme).

The theme for the year was ESG investing, a popular topic emerging in the business world, which was largely unknown to me beforehand. The HKSI provided an online introductory course, the “ESG Fundamentals Certificate”, to better prepare the candidates for the competition. It was a valuable course that greatly deepened my understanding of ESG.

The best-performing students went through to the next phase, to be coached by the company sponsors. I was so grateful to have been coached by Mr Sun and Ms Xia from Haitong International Securities on an ESG strategies research project. Their passion and commitment to ESG made me more interested in this area.

Overall, I think this competition has equipped me with essential knowledge of ESG. It was a valuable learning experience, and I feel extremely grateful to have gained the Top Performer Award.
