

PMI Hong Kong Chapter Project Management Case Competition 2021-2022

CHONG Tung Yim Tony, BBA in Accountancy, 2020 Cohort
MA Chin Kiu Christy, BBA in Accountancy, 2020 Cohort

The PMI Hong Kong Chapter Project Management Case Competition 2021–2022 was successfully organised to take place virtually this year, and was well attended by 178 students in 36 teams from nine universities. All of the participating teams attended workshops organised by PMIHK in December 2021 and January 2022 and proposed projects for achieving transformation with the use of the latest technologies. Eight teams were shortlisted to make final presentations to a panel of six judges on 9 April 2022.

The Department of Accountancy (AC) is delighted to announce that the CityU team, consisting of two AC students among other business Majors, received the Best Project Award. The department was thrilled to hear from the two AC participants about their experience.

CHONG Tung Yim, Tony

It was an honour to receive the Best Project Award for this competition. After a rocky start, we eventually identified a viable and fruitful topic. The competition has undoubtedly improved my soft skills and, most importantly, my communication skills. I would like to take this chance to thank my teammates for all their hard work. As the saying goes, “Individually, we are one drop. Together, we are an ocean.”

MA Chin Kiu, Christy

It was a tremendous surprise for us to win the championship. Our sweet success could not have been achieved without our fair share of blood, sweat and tears! The most challenging part I encountered was managing the workload as I was working concurrently on an internship. Fortunately, my teammates were very supportive and guided me along the way.

They say, either you run the day, or the day runs you. You will always encounter challenges, but sitting and waiting for things to happen will never lead to success. Don't let the day run you.

Congratulations Tony and Christy for your outstanding and remarkable achievements! The AC wishes them every success in their future endeavours.

Project Management Case Competition 2021-2022 – Winners Announcement

The PMI Hong Kong Chapter Project Management Case Competition 2021-2022 has been successfully completed with active participation by 178 students in 36 teams from nine universities with high-quality submissions.

All teams have effectively applied the project management knowledge and skills introduced in the workshops organized by PMIHK in December 2021 and January 2022 to propose projects for achieving transformation with the use of the latest technologies. After a thorough review of the project proposals and detailed project management materials by judges with extensive project management experience, eight teams were shortlisted to make final presentations to a panel of six judges on 9 April 2022.

The awards are finally given to teams that have demonstrated the most effective use of project management skills and knowledge. The Best Project Manager Award belongs to the project manager with outstanding performance in mobilizing the team members in designing the project with effective solutions, preparing submissions with extensive supporting, and making impressive presentations.

It is our pleasure to announce the winners as follows:

Award	Team and Student Names	Topic
Best Project	Smart People Consulting (Team Members: Ling Cheuk Laam, Choy Lok Yiu Chloe, Wong Hoi Ming, Ma Chin Kiu Christy, Chong, Tung Yim , Chan Long Hin) [CityU]	Café de Coral: Flexible & Sustainable Development In the New Era
