AMPLIFYME

## Overview

The AmplifyME Pathways platform is designed to maximize your chances of securing a rewarding career in finance.

Pathways combines immersive live simulations, on-demand learning, and expert career support to give you the practical experience you need across markets, banking and quant career paths.

The simulations will help you build your skills, track your progress and access fast track opportunities with leading financial institutions.

With leaderboards, masterclasses and a record of your achievements the Pathways programme helps you gain the confidence, experience and connections you need to stand out in applications and interviews.

## What are the three pathways?

### MARKETS PATHWAY

Engage in high-energy roles like Sales Trader, Market Maker, Asset Manager and Hedge Fund. Navigate the trading floor through our immersive simulations.

### BANKING PATHWAY

Work as a Junior Analyst in banking roles, modelling financials and closing deals through exciting real-life scenarios.

### QUANT PATHWAY

Automate processes and trading strategies using Python where you transform data into profitable outcomes in quantitative finance.

## How can I book my workshops?
