Welcome Message

Welcome to the Department of Decision Analytics and Operations! Providing quality education for our undergraduate students is a top priority for the Department of Decision Analytics and Operations. As a student of the department, you can utilize the newly renovated DAO Student Activity Room, receive one or more of our numerous scholarships, and participate in internship, exchange, study tours and many other activities that we organize. We have invested huge amount of resources in our undergraduate programs and this investment will continue.

The BBA in Global Operations Management (GOM) is a newly designed program to enable students to tackle the operations challenges of business managers in the 21st century. We are delighted to have recruited very good students, including you, as our new batch of students in the program. We look forward to working with you to help become successful managers, consultants and analysts in the future.

Should you have any questions, please feel free to contact the program leaders and other staff in the department. I wish you all every success in your studies and in your future career!

Prof. Pengfei Guo
Chair Professor and Head
Department of Decision Analytics and Operations

About the Department of Decision Analytics and Operations

The Department of Decision Analytics and Operations at the City University of Hong Kong is noted for its strong academic programmes. Most of the staff obtained their doctoral degrees from prominent universities in USA, Canada, UK and Australia. Together, they have many years of local and overseas experience in teaching and consulting. The size and the activities of its staff have made the Department one of the largest departments of decision analytics and operations in the Asia-Pacific region. The Department has three main functions: teaching, research and professional services. In all three areas, the work carried out is business oriented, with an emphasis on practical application of quantitative skills.

The teaching and degree programmes offered by the Department are wide ranging, and emphasize the applications of quantitative techniques in a very broad sense. It produces graduates who are well received by local business organizations, testified by the positions held by past graduates. The staff's superior teaching skills are well recognized and the Department has won three Teaching Excellence Awards presented by the University.

What is GOM

Global Operations Management - The Art and Science of Value Creation and Delivery

Globalization has brought fundamental changes to the business environment in the 21st century. Facing stronger competition and more rapidly changing market, firms are challenged to achieve higher cost efficiency, customer responsiveness and operational flexibility to sustain competitiveness and to respond to the changing world. Improving productivity and driving value through operational excellence has emerged to the forefront of many companies' strategic concerns, especially multinational companies.

The BBA GOM program aims to enable students to tackle the operations challenges of business managers in the 21st century. Students gain insights in different practices and learn technologies that have proved to be critical in the success of leading companies.

It offers a comprehensive coverage of operations issues in different industries. The program is designed to ensure that graduates acquire both the knowledge and skills to manage operations in local and global settings and work effectively in competitive marketplaces.

Building on the best of our predecessor 3-year programs in Service Operations Management and Management Science, the BBA GOM program equips students with professional knowledge that is recognized and highly valued in the workplace.

Programme Structure

Major Core Courses

- Global Business Logistics
- Global Supply Chain Management
- Quality Management

- Business Case Analysis and Communication
- Workshop on Global Operations and Supply Chain Management Practice
- Best Practices in Global Operations Management

- Data-driven Business Modeling
- Operations Analytics
- Introduction to Business Programming in Python

 [Click on course title for details](#)

Major Electives

Choose any **four** courses from the followings:

Trade & Supply Chain

- Enterprise Resource Planning
- Business Project Management
- Simulation

Decision Analytics

- Quantitative Business Analysis with VBA
- Database Systems[#]
- Java Programming[#]

Hospitality & Retail

- Hospitality Management
- Pricing and Revenue Management

Practicum

- Internship for Management Sciences
- Operations Management Project

#Java Programming is a prerequisite for Database Systems.

Major Core courses offered in 2025-26

Course Code	Course Title	Credit	Remarks	Semester
CB2100	Introduction to Financial Accounting	3	Major course required by College	A & B
CB2101	Introduction to Managerial Accounting	3	Major course required by College	A & B

+ Subject to Major Leader's approval

Students are allowed to take both CB3800 and MS3403. If both courses are taken, (a) they must be taken in different academic years and under different organizations, (b) only one of them can be used to satisfy major elective requirements and the other can be used to fulfill free elective course requirements.

Major Elective Courses Recommendations based on Industry Sectors

A good course planning in the undergraduate studies based on your aspired career path will give you an advantage of seizing better opportunities upon graduation. Our major electives offer students a wide variety of choices and flexibility in pursuing management and consultant positions. Students can customize the curriculum to meet their career interests and goals. To assist our students in choosing major electives, we have prepared an overview of electives recommendation for students who are interested in a particular industry sector.

These industry sector-based recommendations are just one of the many sources of advice in choosing your major electives. We encourage students to consider other sources of advice such as faculty, alumni, recruiters and fellow students. Recommended major electives for different industry sectors are listed as follows:

Industry Sectors	Key Recommended Major Electives
Trade & Supply Chain Management	<ul style="list-style-type: none"> - Simulation - Business Project Management - Enterprise Resource Planning - Pricing and Revenue Management - Operations Management Project+ - Internship for Management Sciences+#
Hospitality & Retail	<ul style="list-style-type: none"> - Enterprise Resource Planning - Hospitality Management - Pricing and Revenue Management - Internship for Management Sciences+# - LC2401 French 1 / LC2501 German 1 / LC2601 Spanish 1 / LC2930 Japanese Language - Level 1 / LC2973 Korean I
Business Consulting	<ul style="list-style-type: none"> - Quantitative Business Analysis with VBA - Java Programming - Business Project Management - Operations Management Project+ - Pricing and Revenue Management - Enterprise Resource Planning - Internship for Management Sciences+#
Banking & Finance	<ul style="list-style-type: none"> - Quantitative Business Analysis with VBA - Java Programming - Database Systems - Internship for Management Sciences+#
Information Technology	<ul style="list-style-type: none"> - Java Programming - Database Systems - Simulation - Quantitative Business Analysis with VBA - Internship for Management Sciences+#

+ Subject to Major Leader's approval

Students are allowed to take both CB3800 and MS3403. If both courses are taken, they must be taken in different academic years and under different organizations

	25th percentile:	3.32

Student Exchange Programme

Student exchange program

We highly encourage you to participate in student exchange programmes during their course of study.

Benefits of student exchange:

- Expand students' international exposure;
- Learn more about yourself and another culture;
- Become more mature and independent;
- Improve language skills;
- Improve planning skills.

Supports from your department

- We have departmental exchange partners only for our DAO students.

Application Requirements and Procedures

Who should apply?

We welcome the following current BBA full-time students who do not have any exchange study experience to make the application:

When to apply?

Year of Programmes	Period of Application	Period of Study	Expected Graduation Date
2-Year BBA Programmes (BBAU2)	Year 3 November Year 3 July	Year 4 Semester A and Year 4 Semester B	Normal Summer (i.e. mid-Oct)
3-Year BBA Programmes (BBAU3)	Year 2 November Year 2 July Year 3 November Year 3 July	Year 3 Semester A and/or B Year 3 Semester B Year 4 Semester A and/or B Year 4 Semester B	Normal Normal Normal Summer (i.e. mid-Oct)
4-Year BBA Programmes (BBAU4)	Year 1 November Year 1 July Year 2 November Year 2 July Year 3 November Not Applicable	Year 2 Semester B Year 2 Semester B Year 3 Semester A and/or B Year 3 Semester B Year 4 Semester A Year 4 Semester B	Normal Normal Normal Normal Normal Not Applicable

Application	Exchange Period	Application Period
2025-2026 First Round	Semester A and/or B 2026-2027	1 to 30 November 2025
2025-2026 Second Round	Semester B 2026-2027	1 to 31 July 2026

The quotas left behind from the First Round Application will be invited application in the Second Round. Students are therefore encouraged to make their application in the first round application.

Where to go?

Applicants should make their choices from the List of Universities for the College and Departmental Level Exchange Programmes.

How to apply?

Please complete the Online Application by logging in your Electronic ID and submit the following supplementary documents electronically:

- A recent passport-size photo
- English proficiency test report, i.e TOEFL or IELTS organized by British Council or IDP
 - optional for applicants who choose to study in Mainland or Taiwan
 - the test date of your report should be after October 2024 (i.e. valid for duration of two years until end of October 2026);
 - late submission of the report can be accepted until mid-August 2026
- Hong Kong Diploma of Secondary Education Examination (DSE) report (for local students only)
- Upload 1-minute Video of (i) Self-Introduction or (ii) Introduction of CityU campus facilities and services
- Any other supplementary information which you think would be relevant to your application

Selection Criteria

- At least completed one year of study in bachelor's degree programme before commencing the exchange programme
- Have a good academic track record with a minimum cumulative CGPA of 2.7 (for the College and Departmental Exchange Programmes)
 - (i) CGPA after the examination result of Summer 2026 will be considered
 - (ii) students who have cumulative CGPA of 2.5 or above are eligible to apply for the Institutional Level Exchange Programmes offered by the Global Engagement Office
- Meet the admission requirements of the host university (e.g. GPA, IELTS, TOEFL, foreign language, etc)
- Fulfill the following English language requirement (optional for applicants who choose to study in Mainland or Taiwan):
 - (i) a minimum TOEFL score of 79 (Internet-based)/213 (Computer-based), or
 - (ii) IELTS Band 6.5 or above, and
 - (iii) the test date of your report should be after October 2024, i.e. valid for duration of two years until end of October 2026
- Have a good performance in the selection interview, and
- Priority will be given to applicants who have satisfactory IELTS or TOEFL scores on or before 13 August 2026

Internship

MS3403 - Internship for Decision Analytics and Operations

Department liaises with local, mainland, and overseas companies that offer internships to our students.

- Credit Units: 3
- Course Duration: Semester A, B and Summer
- Coursework: 100%

Course Aims :

This course aims to enrich students' learning experience through interactions with professionals in the business world through internship tasks. It also enables students to gain valuable work experience to acquire an in-depth and practical understanding of business analysis and operation management in a business organization for a minimum of six weeks in the summer semester or its equivalent for Part-time (a minimum of 240 work hours) in Semester A or Semester B. Additionally, students can enhance their competitiveness in the job market and discovery experience before their graduation.

Course Outline: <http://www.cityu.edu.hk/catalogue/ug/current/course/MS3403.htm>

Application Details: <https://www.cb.cityu.edu.hk/ms/students-alumni/student-enrichment/dao-internship-program>

MS3404 - Internship, Training and Career Development (non-credit bearing)

- Credit Units: 0
- Course Duration: Semester A, B and Summer
- Coursework: 100%

Course Aims :

This course is designed to enhance and enrich students' educational experience by integrating the academic component of their degree programme with the practical workplace experience gained at the internship site in local and/or international contexts. The course provides an opportunity for students to apply management sciences theories, practices, and skills in the workplace setting, and to critically reflect on the efficacy of the knowledge learnt in the classroom.

CB3800 Business Practice Internship

The internship is designed to provide students with real life working experience in local contexts for a period of time. With placements in international businesses, banking, financial services, insurance, accountancy firms, etc., students are expected to gain in-depth and practical understanding of business operations and the professional contexts in which they are expected to apply the theory and skills they have learned in the formal curriculum.

Students will be placed into a multi-national corporation for six weeks full-time internship during the summer. Before the internship, students shall participate in a 2-day workshop on business ethics, business etiquette and interpersonal communication skills. At the end of the internship, students are required to prepare and submit a report.

Other Activities

"A" Project: Student Ambassadors Programme

The Student Ambassadors Programme ("A" Project) is a student development programme launched by the Student Leadership and Development Teams, SDS in 1997. The objective of this programme is to foster students' whole person development, such as positive attitude, leadership, problem solving abilities, communication and interpersonal skills as well as broadening students' social exposure, international outlook and life experience; enhance students' knowledge of and sense of belonging to CityU through the practical experience of serving the University and develop a pool of Student Ambassadors to help promote the University's image.

The Student ambassadors are required to attend a comprehensive training programme and to offer service to the University. The training programme includes training camps, feature talks, visits, workshops, group projects and a high table dinner. A partially sponsored non-local interflow tour is also included in the training programme for those Student Ambassadors with excellent participation and performance in training and services to the University.

Website: https://www.cityu.edu.hk/sds/web/career_ambassadors.shtml

Fang Brothers Whole Person Development Scholarships 2025/26

To encourage students' Whole Person Development and to reward students with talents or significant contributions to the community, Fang Brothers Whole Person Development Scholarship Scheme has been established commencing from the 2004/2005 academic year. In 2014, Dr. Kenneth Fang generously made a donation in support of setting up an endowment fund to support the Scholarships.

7 Areas of Development	Programme Examples
Spiritual	Cultural forum, community service
Intellectual	Study skills, thinking skills workshop
Physical	P.E. Course, sport tournament, health education programmes
Social	Orientation for freshmen, training for student leaders
Aesthetic	Music, art appreciation
Career	Career talk, workshop on job search
Emotional	Peer counsellor training, mental fitness series

A maximum of two scholarships of HK\$100,000 each shall be awarded in 2025/26 to support the recipient's tuition fee, living expenses and fees for participating in meaningful learning activities.

Campus Internship Scheme (CIS)

Introduction

To better consolidate students' work-based learning experience and to enhance their professional and personal development on campus, a Task Force chaired by the Vice-President (Student Affairs) has conducted a review of the On-campus Service-learning Scheme (OSS) in October 2011 and has recommended the introduction of two new schemes, namely the Campus Internship Scheme (CIS) and the Campus Work Scheme (CWS), for implementation on 1st July 2012 to replace the OSS.

Starting from 1 July 2020, CWS will cease to be implemented so that the hiring and management of student helpers will be decentralized for the Recruiting Units, while CLC will continue to manage CIS.

All enquiries on CIS and suggestions may be forwarded directly to the Career and Leadership Centre via email at clc.careercentre@cityu.edu.hk.

Programme Objectives (CIS)

- To enhance students' understanding of the work environment and their long term personal and professional development
- To develop students' analytical, problem-solving, and interpersonal skills to engage in discovery and innovation
- To facilitate students' career exploration and add value to their employability.

Student Mentoring Scheme (SMS)

The purposes of SMS are:

- To help first-year students adjust to university education;
- To develop a supportive personal network amongst first-year students and senior students;
- To create a warm atmosphere and positive academic culture in the campus;
- To assist first-year students in enhancing their educational experience and development as a person and as a professional in their chosen fields of study.

The scopes of SMS are:

- The range of activities can be very comprehensive, from educational to entertaining, personal to professional;
- The student mentors can assume very flexibly the roles of big brother / sister, adviser, information-provider, counselor, coach or private tutor, or simply friend;
- The types of activities and relationship really depend on the needs of the first-year students and their chemistry with the mentors.

Industrial Mentoring Scheme (IMS)

Our Mentorship Program aims at establishing a caring and supportive relationship between City University alumni, business executives (mentors) and undergraduates (mentees) to achieve the following objectives:

- To facilitate the educational, social and personal growth of mentees
- To develop mentees' fullest potential, vision and aspirations for the future
- To enhance mentees' future professional and career development
- To empower mentees to face challenges in society

A mentoring relationship is one that encourages discussion, questions and feedback regarding those areas that will enhance the mentees' capabilities/competencies. These capabilities may be job related, but may also be in the area of school or life in general.

How does the mentorship program work?

The mentor and the mentee would agree on the level of commitment, mode and frequency of interaction, as well as the preferred focus through the mentorship process. Each mentor is encouraged to take on one to three mentees during the same period. At least one face to face meeting is highly recommended. Other activities can be arranged depending on individual mentors and mentees such as:

- regular contact through phone or email
- campus visits by mentors
- workplace visits by mentees
- leisure and social activities

Mentor List 2024 – 2025

Mentors:

Miss Ada Wong, HR Manager, Hong Kong Industrial Artificial Intelligence and Robotics Centre

Mr. Andy Lau, Senior Manager, Fidelity International

Mr. Ben Wong, CEO, BAIKE HK CONSULTANT

Miss Isa Ng, Senior Foreman, HKSAR

Mr. Jason Tsang, Supplies Officer, HKSAR Government - Government Logistics Department

Mr. Kavi Fong, Director, Infate Technology Limited

Mr. Sammy Yu, Logistics Projects Director, RIMOWA Far East Limited

Miss Senna Leung, Director, Bank of East Asia

Miss Tiffany Lau, Partner, One Capital Solution Limited

Awards and Scholarships

In DAO, we award excellent students by various scholarships every year. (subject to changes)

For second, third and fourth year students, we offer

The Department of Decision Analytics and Operations Outstanding Student Prizes and Scholarship

The Department of Decision Analytics and Operations Academic Progress Awards

- For undergraduate students who demonstrate excellence through extra-curricular activities, personal and professional growth, and services to our department

The Department of Decision Analytics and Operations Student Development Scholarships

- Selected based on the following criteria: i) exceptionally outstanding performance in extra-curricular activities, ii) winning record in internal and external competitions, iii) participation in departmental services (e.g., student mentoring, study group leadership), and iv) academic performance
