

CALL FOR PAPERS
International conference on
Pacific Rim Economies and
the Evolution of the International Monetary Architecture

December 19-20, 2013, City University of Hong Kong, Hong Kong

Organized by City University of Hong Kong, Department of Economics and Finance, and Research Center for International Economics, and Journal of International Money and Finance

The conference invites researchers to present their original works on contemporary issues related to the evolving roles of Pacific Rim economies in shaping the International Monetary Architecture. Possible topics include, but are not necessarily limited to, the following:

- Pacific Rim economies and global imbalances
- International reserves in the Post-Global financial crisis era
- New and emerging roles of currencies of Pacific Rim economies
- Changing patterns of Chinese saving/investment/current account
- Emergence of a global Chinese currency; and its implications for China, the global economy, financial market integration, and financial stability
- Exchange rate fluctuations with highly integrated production chains

Those interested in presenting at the conference should send a completed paper or an extended abstract in WORD or PDF format via email to IMS2013@cityu.edu.hk by July 1, 2013. Authors of accepted papers will be notified by August 15, 2013. Final versions of the accepted papers will be posted on the [conference website](#).

Selected papers presented in the conference will be considered – via a fast track review process – for a JIMF special issue titled “Pacific Rim Economies and the Evolution of the International Monetary Architecture,” which is scheduled to be published in 2014. Co-editors are Joshua Aizenman (JIMF), Yin-Wong Cheung (CityU, HK), and Menzie Chinn (JIMF).

The Journal of International Money and Finance

Since its launch in 1982, *Journal of International Money and Finance* (JIMF) has built up a solid reputation as a high quality scholarly journal devoted to theoretical and empirical research in the fields of international monetary economics, international finance, and the rapidly developing overlap area between the two. Today, it is one of the key journals in the field of modern finance. A special issue of JIMF on **Pacific Rim Economies** is a unique opportunity to showcase literature among a broader finance audience. At the same time, the special issue of JIMF is a great way of attracting the best researchers, since publishing in JIMF is a great opportunity for all.
