

We are pleased to announce that the four programs: Bachelor of Business Administration in Finance; Bachelor of Science in Computational Finance and Financial Technology; Master of Science in Finance; and Master of Science in Financial Engineering have been admitted into the CFA Institute University Affiliation Program. This indicates that we have embed a significant portion of the CFA Program Candidate Body of Knowledge (CBOK)—including the Code of Ethics and Standards of Professional Conduct — into the curricula of these programs. Being part of the CFA Institute University Affiliation Program, it signals to the students and the potential employers that the curricula of these programmes are closely tied to the practice of investment management and are helpful to students preparing for the CFA® Program examinations.

About CFA Institute

CFA Institute is the global association of investment professionals that sets the standard for professional excellence and credentials. The organization is a champion of ethical behavior in investment markets and a respected source of knowledge in the global financial community. Our aim is to create an environment where investors’ interests come first, markets function at their best, and economies grow. There are more than 190,000 CFA charterholders worldwide in 160 markets. CFA Institute has nine offices worldwide and there are 160+ CFA Societies. For more information, visit www.cfainstitute.org

About the CFA Program

The CFA Program sets a standard for developing the skills, standards, competence, and integrity of financial analysts, portfolio managers, investment advisers, and other investment professionals worldwide. It is widely considered the investment profession’s most rigorous credentialing program. The CFA curriculum and examinations are identical worldwide. Fewer than one in five candidates who begin the program successfully complete it and go on to earn the coveted CFA charter, the “gold standard” for investment professionals.
