EF MSAE Alumni-Students-Professor Networking Event

CityUHK EF Fosters Strong Community Bonds at the 2026 MSAE Networking Event

The Department of Economics and Finance successfully hosted the Master of Science in Applied Economics gathering on 31 October 2026. The event drew an exceptional turnout of 152 participants, serving as a vibrant platform to bridge academic study with professional practice.

The MSAE Alumni–Student–Faculty Networking Event brought together graduates, current students, and faculty to share experiences and strengthen connections across cohorts. Engaging alumni presentations and an interactive Q&A sparked lively discussions, which continued over lunch as attendees reconnected and built new relationships. By fostering an active exchange of insight and mentorship, the gathering reinforced the enduring value of the MSAE community—supporting our members well beyond the classroom.
