

## Seize the opportunity *By Calvin Chung*

Chance is everywhere, especially in University, we have to be proactive to enrich your university life. Here is my sharing about the management programme and my workplace. Hope my sharing can inspire you.

### **Student Entrepreneurship Project**

I participated in Student Entrepreneurship project in 2018-2019 as the vice president. Our team was formed by 30 management students and separated into 4 groups which are HR team, Marketing team, Product team and accounting team. I have chosen to join the HR team. On the first stage of our project, we placed a bid to have a booth at Victoria Park, which is the largest venue for holding Chinese New Year Fair in Hong Kong. Throughout this process, I have learned a lot. For example, cooperating with my teammates, communicating with the supplier and dealing with the financial issues. As a management student majoring in human resources, this was a good opportunity for us to apply what we had learned from lectures.

### Internship

Department of Management provides various career advice and opportunities for students. I have been in contact with this industry for several years, so I have a certain understanding of it, and I think the career path of this industry is so clear. There are many Christian leaders in the Agency. Many young people have attained certain achievements, such as leading a team of dozens of people, and this serves as a good testimony of ability in the workplace. So, as a young person myself, I believe that as long as I am willing to work hard and treat every customer with utmost consideration, I believe I can achieve good results in my career and even become a leader who inspires others.

With my personality type, I like to work with people because I enjoy talking and getting along with others. This job just involves in getting in touch with different lives and families. Apart from sharing financial knowledge with every customer, caring about their various financial needs, and even discussing their own life goals together, more importantly I can build a relationship with each person. I believe it is an opportunity for me to better understand the needs of my friends, and share my faith and preach the gospel.

Think Big.

*Nothing in the world can take the place of persistence. Talent will not; nothing is more common than unsuccessful men with talent. Genius will not; unrewarded genius is almost a proverb. Education will not; the world is full of educated derelicts.*

***Persistence and determination alone are omnipotent.***
