

Team ‘UNI Match’ Awarded UGC Funding for Internationalisation Project

We are pleased to announce that Team “UNI Match”, which includes 4 of our MGT students, has been awarded University Grants Committee (UGC) and CityU funds to enhance and promote internationalisation in CityU. Team “UNI Match” is creating a mobile App that gives exchange and local students a platform to communicate with each other.

In partnership with the UGC, CityU launched the Internationalisation Scheme to help internationalise the CityU campus through student projects that will be implemented during the 2013/14 - 2014/15 academic years. A total of 23 proposals were received and reviewed by the Internationalisation Scheme Selection Panel. Only 8 teams have been selected. The selected projects will provide opportunities for local and non-local students to work together toward a common purpose of providing a more welcoming environment for all students.
